## PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in designing and deploying scalable web applications using **JavaScript**, **Python**, and **FastAPI**. Proficient in integrating modern LLM APIs, including **OpenAI** and **Gemini**, into production workflows, with a strong foundation in backend performance, clean REST architecture, and defensive web security.

## WORK EXPERIENCES

### Red Team Security Intern | Internship

Feb 2025 - Mar 2025

*Red Team Users*

*Remote • Remote*

- Conducted comprehensive security assessments across **15+ web endpoints** and network assets using **Burp Suite** and **Nmap**, identifying vulnerabilities ranging from Medium to Critical severity (**CVSS 6.0–8.5+**).
- Documented findings with clear remediation steps in a security report delivered to the internal team.

**Technologies / Skills Used :** *Burp Suite, Nmap*

## PROJECTS

### SwasthaTrack | 🐙 Github △ Vercel

Jan 2025 - Present

*Developer*

- Architected a full-stack healthcare workflow engine synchronizing clinical data across 5 dashboards with sub-150ms state latency.
- Built an asynchronous FastAPI triage pipeline using Google Gemini API to automate priority queues with 90%+ diagnostic accuracy.
- Engineered 15+ secure REST endpoints with Pydantic validation and PostgreSQL pooling, preventing concurrency data mismatches.

**Technologies / Tools Used :** *JavaScript, FastAPI, PostgreSQL, Gemini API, Tailwind CSS*

### KeyWhisper-AI (EM-SEC) | 🐙 Github

2025 - 2025

*Contributor*

- Contributed to an EM side-channel research tool analyzing RF keystroke leakage across 100 frequency bins at 2.4 GHz.
- Secured Flask backend by sanitizing file uploads and isolating routes, eliminating unhandled 400/500 crash exceptions.
- Built an asynchronous UI toast engine, preventing render-loop freezes during 60 FPS Canvas waterfall spectrogram runs.

**Technologies / Tools Used :** *Python, Flask, JavaScript, HTML5 Canvas, REST API*

## SKILLS

|                                     |                                                                |
|-------------------------------------|----------------------------------------------------------------|
| <b>Databases :</b>                  | PostgreSQL, MySQL, Supabase, Redis, Firebase                   |
| <b>Frameworks &amp; Libraries :</b> | FastAPI, Flask, Tailwind CSS, React, Node.js, Express, Next.js |
| <b>Programming Languages :</b>      | Python, JavaScript, Java, SQL                                  |
| <b>Tools &amp; Platforms :</b>      | Git, GitHub, Vercel, Postman, VS Code                          |

## EDUCATIONS

### VIT Bhopal University | Bhopal, India

2023 - 2027

*B.Tech*

*CGPA : 8.72/10.0*

- Specialization: **Cybersecurity & Digital Forensics**

## CERTIFICATIONS

- Blockchain and its Applications - IIT Kharagpur (NPTEL)
- The Bits and Bytes of Computer Networking - Google
